<b>Learning Objectives</b>			
Knowledge : Explain the importance of environmental sustainability for the well-being of life			
Socioemotional : Appreciate and love the environment			
Action : Involved in protecting the environment			
<b>Introduction (Suggested for Unit 1)</b>			
Global sustainability defines the conditions under which humans and nature, the world and the Earth can co-exist in ways that enable productive harmony, stability and resilience to support present and future generations. Sustainability means meeting the needs of the present without compromising the ability of future generations to meet theirs. It has three main pillars: economic, environmental, and social.			

### Activity 1

**In groups, read the significance of World Environment Day and discuss the questions that follow.**

World Environment Day is celebrated on the 5th of June every year, and is the United Nation's principal vehicle for encouraging awareness and action for the protection of our environment.

**Date** : Friday, June 5, 2023

**Significance** : Environmental issues awareness

**Observances** : Environment Protection

- What does World Environment Day mean to each and everyone in the group?
- How would you pass on the message of global sustainability to your neighbours?
- Create a poster on global sustainability.
- Display the poster in the class and compare the contents of each poster from the aspects of:

Significance, relevance and impressions on viewers  
Relevance to core value of responsibility

### Activity 2

**Read and understand the meaning of carbon footprint.**

A carbon footprint is the total amount of greenhouse gases produced to directly or indirectly support human activities, usually expressed in equivalent tons of carbon (CO<sup>2</sup>).

Your carbon footprint is the sum of all emissions of CO<sup>2</sup> which were induced by your activities for the time period of one year. CO<sup>2</sup> is the cause of global warming.

List out the ways you think will help you reduce your carbon footprint.

## Topic Networking Across Border

<b>Topic:</b> Diligence in Work	<b>Learning Standards:</b> 2.1.6 , 4.1.5	<b>Lesson Plan:</b> Lesson 19 and 21	<b>Core Value:</b> Happiness
------------------------------------	---	---	---------------------------------

### Learning Objectives

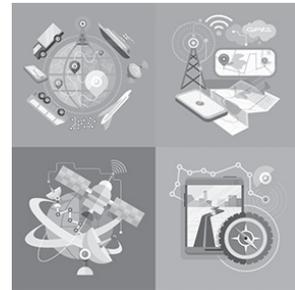

- Knowledge : Explain the importance choosing friends wisely across borders  
 Socioemotional : Appreciate friendship ties and relationship with friends  
 Action : Use technology wisely when networking with friends virtually

### Introduction (Suggested for Unit 2)

Networking is the process of meeting and talking to a lot of people especially in order to get information that can help you for social, economic and cultural reasons. It involves everyone from every strata of society. We can do this through everyday contact, travel within and out of the country or technology. Technologically, it merely involves the process of connecting two or more computers together so that they can share information. Thus, enabled by modern technology, people from all over the world are offered a myriad of opportunities for social interactions and group assembly.

### Activity 1

**In groups, study the images below and discuss how travelling changes one's life.**  
 Discuss and add on as many points as possible.

- You will meet people that you would not normally meet.
- Travel opens your eyes to the fact that there are other ways of life.
- Learn more things than you can ever learn in class.
- Makes you curious and interested in other cultures beyond your borders.

### Activity 2

To make friends beyond borders within and out of the country, we can do this through the social media.

- Talk about how to make friends through the social media.
- Popular social media platforms that are used internationally include Facebook, Twitter, Bebo, and Badoo.  
 What are popular social media platforms that are used locally?
- When you talk to someone online, do research about their social customs and try to be as polite as possible.
- How should you address or direct a message to the person?

## Topic Technological Advancement and Ethics in Usage of Gadgets

<b>Topic:</b> Ethics in Technology	<b>Learning Standards:</b> 2.1.3, 3.1.5	<b>Lesson Plan:</b> Lesson 83 and 84	<b>Core Value:</b> Happiness
---------------------------------------	--	---	---------------------------------

### Learning Objectives

- Knowledge : Explain the ethics when using technology  
 Socioemotional : Express happiness in using technology  
 Action : Practise ethical behaviour when using technology in everyday life

### Introduction (Suggested for Unit 4)

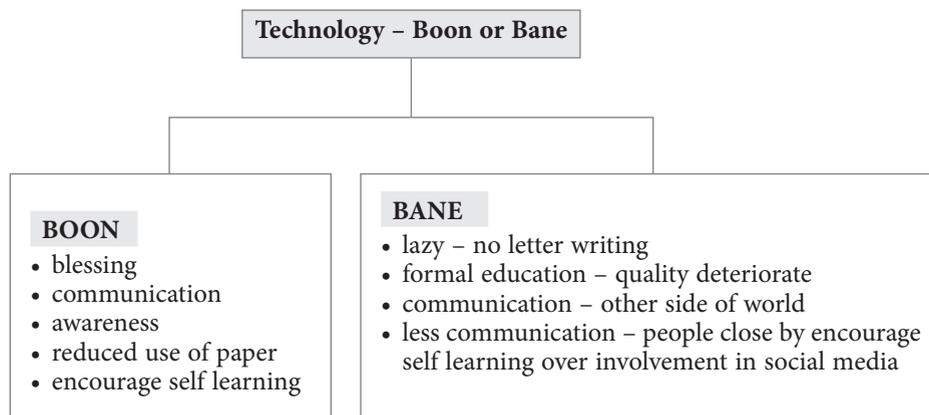

In this rapidly advancing 21st Century, we find appliances and technological gadgets everywhere. TVs, mobile phones, computers – where would we be without technology? Technology has brought many conveniences to our lives. The latest 4G mobile phone allows us to make calls, take photos, and surf the Internet – all in one handy gadget. MP3s allow us to listen to music while we go about our daily lives without having to carry a bulky disc player. Even Octopus cards function as an alternative to a heap of metal coins and strips of paper.

### Activity 1

Technological advances make our lives more comfortable. However, keep in mind that it is a tool for us to use to do something or achieve an outcome. As with everything, there are some ethics to observe when using this tool or technology. We receive and send emails daily. List and discuss some of email etiquette we should observe to show that we are using technology ethically.

### Activity 2

Form groups and discuss and elaborate on the points given below on Technology – Boon, Bane and Steps.

### STEPS TO MAKE TECHNOLOGY A BOON RATHER THAN A BANE

- limit screen time
- constructive purposes
- encourage interpersonal interaction
- fix time for family bonding
- plan family activities
