

Perbandingan antara Tindak Balas Endotermik dengan Tindak Balas Eksotermik *Comparisons between Endothermic Reaction and Exothermic Reaction*

Persamaan / *Similarities*

Berlaku perubahan suhu / *Changes in temperature occur*

Berlaku perubahan tenaga / *Energy change takes place*

Perbezaan / *Differences*

Tindak balas endotermik *Endothermic reaction*

Suhu persekitaran menurun
The surrounding temperature decreases

Haba diserap dari persekitaran
Heat is absorbed from surrounding

Tindak balas eksotermik *Exothermic reaction*

Suhu persekitaran meningkat
The surrounding temperature increases

Haba dibebaskan ke persekitaran
Heat is released into surrounding
