

Contoh pengiraan menggunakan hukum Ohm

$$I = \frac{V}{R}$$

$$I = \frac{3V}{3\Omega}$$

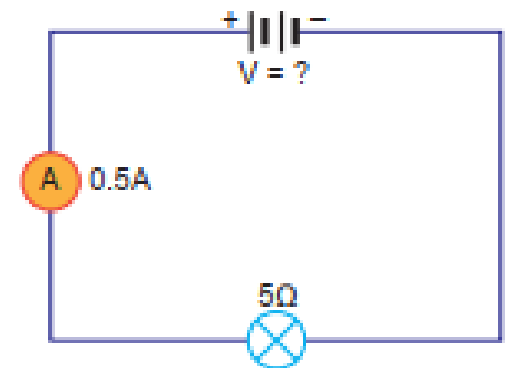

$$I = 1A$$

$$R = \frac{V}{I}$$

$$R = \frac{1.5V}{0.5A}$$

$$R = 3\Omega$$

$$V = I \times R$$

$$V = 0.5A \times 5\Omega$$

$$V = 2.5V$$
